VitalVoice

Your Australian and New Zealand newsletter

A MESSAGE FROM

Matthew Bain

General Manager, Australia and
New Zealand, Vantive

Dear Vantive Customers,

I am thrilled to share with you the launch of our new Vantive Australia and New Zealand newsletter "*VitalVoice*".

Designed by our local A/NZ team, *VitalVoice* serves as an essential source of kidney care insights, therapy innovation news and industry updates. You'll find notices of upcoming events, education programs and training tools to help you and your teams stay up-to-date and support patients. We also aim to bring a personal touch to *VitalVoice*, with profiles and case studies from across the industry showcasing the work of you and your colleagues.

In our first edition we are pleased to showcase our new website: **Vantive Pro**, through various articles within the newsletter. This website is designed for you and your colleagues – why not explore the **new PD training videos** we're launching?

As a new vital organ therapies company, Vantive is proud to build on a 70 year legacy in kidney care to empower patients and their care teams.

We welcome your feedback and suggestions for content, and hope that *VitalVoice* contributes to building and strengthening the clinical community in dialysis care.

Thank you for the expertise and care you bring to the lives of patients every day.

Sincerely,
Matthew Bain

Get to know the people who make kidney care personal

I love my role because I am constantly learning and undertake lots of new activities. I know from the experience of my brother how impactful dialysis can be and I always enjoy working towards making life better for patients on dialysis.

Jane Walton

PD Marketing and Market Access Manager
