

Shared Decision-Making (SDM) in Dialysis: Turning Conversations into Care Lunch Symposium

Sunday,
29 March 2026

12:50 PM–01:50 PM*

Pacifico Yokohama,
Room 304

Join us for a Lunch Symposium at **the World Congress of Nephrology 2026, Yokohama, Japan.**

This session will highlight the importance of providing balanced modality education, including peritoneal dialysis, to empower patients to choose the therapy that best aligns with their life goals. We will also explore gaps in current practice and practical approaches to make shared decision-making a reality.
